Assignment #13

"Illustrated Monologue"

DELIVERABLES

Create a short video story on Avid Media Composer using footage of yourself speaking to the camera. The footage should use Illustrator images to demonstrate what you are discussing.

COMMENTS

Non-linear video editing exists to turn footage into a story. In this case, the video footage you will work with will start with a portrait shot of yourself (it can be comprised of several takes). Demonstrate video editing techniques discussed in class to produce natural transitions, cuts, and orchestrations.

MOTIVATION

YouTube-style instructional video often make use of illustrative content. While we will try to avoid the style such videos often evince, they can be inventive.
