Assignment #10
"AnimatedScenes"

» » » » » » » » » » » » » » » » » » DELIVERABLES

Using the script, storyboard, and assets from previous weeks,
create finished animated scenes. These will be combined together
into a finished animation.

» » » » » » » » » » » » » » » » » » COMMENTS

See our Teams script document for a list of which scenes are to be
animated by whom; each student will be responsible for animated
several scenes completely. Each component will have several
challenges; the initial scenes require careful camera movement and
character movement; the second group of scenes requires a
character transformation; and the last scene requires lip-synching
(which also requires audio to be recorded).
