Programming 2
Cptr.212

Fall 2020 | Southwestern College
Professor Evan Daniel
Evan.Daniel@SCKans.edu

Assignment #8
"Midterm Part I"

» » » » » » » » » » » » » » » »   DELIVERABLES

At **https://github.com/daniel-sckans/cptr212_midterm_pt1** is source code for a program. Inside main(), I will create an object from a series of classes. These need to be implemented, and it is each student's assignment to implement the class with their name on it. You can find the declarations for these classes in the associated header file.
